

Beekeeping at Andrew Mountain Park

Naugatuck Park & Recreation Dept. is planning a Beekeeping area at Andrew Mountain Park.

In addition to providing additional pollination to both Andrew Mtn. Park and the Community Garden, our goal is to help increase the honeybee population.

Naugatuck Park & Recreation is partnering with Peter Ferreira on this project. Peter Ferreira is a third-generation beekeeper. He has been very active in the beekeeping industry as a beekeeper, spokesperson, and educator and has obtained his Master Beekeeper Certification from Cornell University in Ithaca, NY. He is currently a professional beekeeper and keeps his hives in his home apiary and other locations in Connecticut.

Please contact Naugatuck Park & Recreation at 203-720-7043 for further information and to register for the program.
