17. Chief of Police Christopher Edson gave a brief presentation on the **Traffic Study Report, NVCIT Case Number 2017-15, Field Street/Jones Road, Naugatuck**. They initially wanted to install curbing with grass on an island to close the intersection. However, it will make it difficult for truck traffic, especially for plows to navigate the intersection. He recommends painting a striped center island instead of asphalt. A solar warning sign for \$1,800 can be installed coming down the hill on Field Street.

32. Purchasing/Financial Analyst Robert W. Butler, Jr. discussed the **No Cost Lighting Upgrade** as part of the Connecticut Lighting Incentive at the Naugatuck Event Center. Eversource said there is a two year payback. The cost is \$70,000 and their estimated savings is \$42,000 a year. The lighting upgrade will be to the parking lot, first floor and the front part of the second floor. The expense for lighting at the event center last year was \$88,000. The cost to replace T-12 fluorescent bulbs is \$9 to \$12 a foot. It will get harder to find replacement bulbs. It costs money to get rid of fluorescent bulbs because of the mercury content.
